

A3316

The enhanced safety given from being seen makes the Reflective harness a strong choice when working around moving machinery or under poorly lit or nighttime conditions. Also an ideal choice when working within geographic locations affected by short daylight hours where dawn and dusk are part of the work day.

The 3M™ Scotchlite™ reflective material 8910 silver fabric is composed of wide angle, exposed retro-reflective lenses bonded to a durable backing (65% polyester, 35% cotton). This material meeting ASTM E809 & E810 (R) is woven into a 1¼ in. (45 mm) polyester harness webbing in seven specific lines. Creating a visual effect of a solid Scotchlite™ band that spans the width of the webbing when illuminated by direct light in a nighttime environment.

The webbing sports a high visibility lime/yellow base for maximum safety within work environments and offers a minimum tensile strength of 6,000 lbs. (26.7 kN).

For further information, refer to "Use and Maintenance Instructions" for harnesses, belts and lanyards.

Features

- 6,000 lbs. (26.7 kN) tensile 3M™ reflective webbing
- Quick connect or tongue and buckle legs
- Adjustable chest strap
- Adjustable sub-pelvic strap
- Spring bar adjuster
- Lanyard retaining clips on both shoulder straps
- Fall indicators/inspection tag/serial number
- Accommodates tool belt up to 4 in. (102 mm) wide
- Two colors: lime/yellow shoulder straps and black leg straps

Sizes

- One size: A3316 (fits most)
- Small: A3316S
- X-large: A3316XL

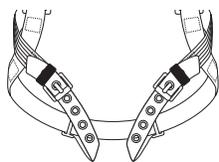

Applications

- Nighttime conditions
- High visibility requirements

Applicable standards

- ANSI Z359.1-2007 and A10.32-2004
- OSHA fall protection requirements

AVAILABLE MODELS

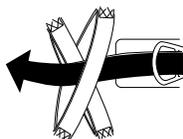

Tongue and buckle style

A3316 – Quick connect legs
AB3316 – Tongue and buckle legs

- Fall arrest attachment element (mandatory)
- Fall arrest applications

MODULAR CAPABILITY

Belt loops

The Reflective harness has belt loops to accommodate any Tractel® belts or your favorite tool belt which is up to 4 in. (102 mm) wide.
